DETAILED ACTION

This office action is in response to claims received 5/18/10.

Election/Restrictions

1. This application is in condition for allowance except for the presence of claims 10 and 39-41 directed to a retractor, were withdrawn in the response dated 9/9/08 without traverse. Accordingly, claims 10 and 39-41 have been cancelled.

Allowable Subject Matter

Claims 2-9, 12-18,20-22,24,25 and 43-45 are allowed.

The following is an examiner's statement of reasons for allowance: This prior art of record, alone or in combination fails to teach a dilation system for dilating body tissue with two dilators that mate with each other, the two dilators mechanically engage with each other and the during delivery the dilators are prevented from rotating freely while traveling along a fixed path (along the passageway described in the claims), when the second dilator disengages from the first dilator at the location described in the claims the second dilator is free to rotate about the first dilator. The applicants arguments submitted 9/22/09 were persuasive regarding the prior art of record not teaching free rotation when the dilators are at the distal ends.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
